**NASC INTERNATIONAL INFORMATION MEMBERSHIP MOVES INTO DOUBLE  
FIGURES**

Falck Prime Atlantic has become the tenth company to secure NASC International Information membership.

The leading training provider, which delivers CISRS Overseas Scaffolder Training Scheme (OSTS) programmes in partnership with Simian International and also services the Nigerian oil and gas industry, with a wide range of courses including Offshore survival, rope access, fire and emergency procedures, joins a growing list of overseas companies that have aligned with the confederation.

Members receive relevant NASC literature, up to 50% discount on NASC publications and inclusion of company details in NASC publications and the NASC website, among other benefits.

Robin James, NASC Managing Director, said: “We’re pleased that Falck Prime Atlantic has chosen to join the NASC International Information member fold. Since launching this membership category last year we have received enquiries from around the globe, all looking to forge closer relationships with the NASC and enjoy the wide range of benefits already afforded to their UK-based counterparts through the NASC Information Membership.”

Membership is open to any non-contracting scaffolding industry organisation trading outside of the UK. This includes training providers, health and safety consultants, scaffold designers, insurers and other service providers to the access and scaffolding industry.

Subscription is £800 plus VAT per calendar year. For more information click [here](#).

**Notes to Editors:**

The NASC is the national trade body for access and scaffolding in the UK – established 1945 and now serving a family of 250+ leading contracting firms, scaffolding suppliers and manufacturers.

The Confederation produces a wide range of industry-recognised safety and technical guidance for scaffolding contractors, their operatives and their clients – accepted as the industry standard by HSE, Build UK, CITB & principal contractors alike.

NASC members are strictly audited – ensuring the highest possible standards are met, confirming to our NASC Criteria, Code of Conduct and the Code of Practice for scaffolding products. It's these high standards of our members' access solutions that are recognised by construction industry leaders, who continue to stipulate NASC-only companies for access and scaffolding.
