PERI UK'S TRAINING ACADEMY GAINS CISRS ACCREDITATION

PERI UK's first-ever scaffolding training centre has gained CISRS accreditation.

PERI's Construction Training Academy, based in Brentwood, will deliver CISRS COTS, SSPTS & BASE courses, Scaffolding Awareness and Scaffolding Inspection courses in both Peri-Up and tube & fittings.

Although purpose-built to support increasing demand in the south, the facility is equipped to meet a variety of training requirements for customers around the UK.

Training Academy Manager, Mark Holmes, said: "We are very excited to be able to offer the same high-quality course content we have delivered so far, now in our very own training facility. It's a fantastic opportunity for PERI to be able to deliver its scaffolding expertise alongside its formwork offering, making trainees aware of just some of the benefits of our systems.

"Receiving accreditation means we can now focus on customising our training services, with the support of our fully-equipped facility, to ensure we deliver an experience our customers will benefit from the most."

David Mosley, CISRS Managing Director and NASC Director of Training, said: "We are really pleased to provide PERI UK's new training centre with CISRS accreditation, which provides some positive news in these difficult times.

"We're sure this facility will prove to be a huge success and wish Mark and everyone involved the very best of luck."

Notes to Editors:

The Construction Industry Scaffolders Record Scheme (CISRS) has been the industry recognised scaffold training scheme for over 40 years.

It is the preferred scaffolding qualification of all the major organisations including CSCS, NASC, HSE, Build UK, UNITE and the largest scaffold systems manufacturers.

The scheme, established in the 1960s, has 66,000+ CISRS card holders in the UK & 6,500+ OSTs card holders overseas.
