

PRESS RELEASE 23.08.23

## **Safety & Access Successfully Gain CISRS Accreditation at New London Centre**

CISRS has recently carried out a successful accreditation audit with established training provider Safety & Access at their new facility in Earlsfield, South London.

Safety & Access are very well known within the sector delivering a wide range of CISRS courses at their centres in Nottingham and Immingham and have a proven track record in delivering top quality training.

George Gilbert, General Manager of Safety and Access, expressed his enthusiasm, stating,

*“We are thrilled to have earned the prestigious CISRS accreditation for our scaffold training centre in Earlsfield. This accomplishment validates our continuous efforts to provide top-notch training aligned with industry standards. Our new location in London and established training centres in Nottingham and Humberside sets the stage for professionals to excel in their scaffold careers.”*

The new London centre has gained accreditation to deliver CISRS COTS, Basic & Advanced Scaffold Inspection, Scaffolding Awareness and Scaffold Refresher/CPD.

It will be a great addition for those in the Southern Region looking to renew their CISRS Scaffold/Advanced cards

The training centre in South London has excellent transport links with Earlsfield station being just one stop from Clapham Junction station and direct from Waterloo.

Tony Barry, CISRS Compliance Director, who conducted the audit said,

*“Safety & Access are an experienced and established CISRS scaffolding training provider and have developed a fantastic facility for scaffolding skills here in South London. Very impressive and spacious classrooms and a good quality practical area which accommodates the range of courses on offer.*

*We are certain it will be a fantastic asset for local companies and wish the centre all the success in the future"*

Those interested in further course information should contact Safety & Access
