

PRESS RELEASE 26.04.24

CISRS Provider 3t and local partner ACG open the first CISRS Centre in Kazakhstan

Congratulations to 3t Training Services and Access Coatings Group (ACG) on gaining CISRS OSTS accreditation at their purpose-built facility at the Tengiz oilfield project in Kazakhstan.

The Tengiz field was discovered in 1979, with high quality, recoverable oil reserves of over 6 billion barrels and 18 BCM of gas it is one of the largest fields in the world.

The centre has been approved to deliver Level 1, Level 2 Scaffolding and Basic Scaffold Inspection. The centre already has plans to expand their CISRS portfolio and is looking to offer system scaffold product training for both Peri and Cuplok, plus the Scaffolding Supervisor programme.

Established in 2013 ACG offer a range of specialised

industrial services including scaffolding painting, and insulation. They are committed to the countries and regions they operate in and look to train the local workforce to the highest industry standards.

Tony Turnbull ACG's Chief Operating Officer said " I am very proud of the team. It has been a great effort on their part to achieve this accreditation. We have previously trained our scaffolders through various programmes both in house and by third parties, however, we want our workforce to have the internationally recognised qualification and that is why we went for CISRS. We would like to thank 3t for their support particularly Gary Brown who came out to the centre to assist us with getting everything over the line"

Emma Howorth 3t General Manager said "We're delighted to have received CISRS OSTS accreditation in collaboration with ACG in Kazakhstan who have built a fantastic fit for purpose CISRS training facility in Tengiz. We are looking forward to being able to deliver CISRS approved scaffolding courses with ACG upskilling the local workforce, and we are thankful for the support of CISRS in assisting us to achieve this accreditation."

Dave Mosley CISRS MD who carried out the audit said " I was very impressed with the set up in Tengiz. There are also further on-going plans to build a brand-new classroom, office and kitchen breakout area for the course delegates which will only enhance their training experience. Well, done to all involved and good luck for the future."
